Experience

Nick's recent experience includes:

- Working within the private sector preparing, lodging and project managing development applications in the areas of subdivisions; large mixed-use developments; high density residential; commercial developments; house extensions; mining, gas and petroleum; accommodation villages and construction camps; and road and transport infrastructure.
- Environmental approvals through environmental management plans; impact assessments (land use component); waterway barrier, riverine protection, tidal works permits; and environmentally relevant activities.
- Strategic planning in the field of State and Commonwealth regional plans under the Regional Development Australia Initiative and input into Brisbane Neighbourhood Plans as they relate to development assessment.
- Working within Brisbane City and Tweed Shire Councils assessing development applications against relevant planning schemes; particularly in the areas of residential/industrial subdivision, multi-unit/single unit development to large residential developments, mixed-use developments, other commercial / residential / industrial developments and house extensions/new dwelling/demolitions.
